# BUSINESS MODEL

## Contracting, Services and Trade

### CONTRACTING

In Riyadh, Saudi Arabia, we are a firm that provides engineering, procurement, and construction services.

### SERVICES

Our focus is on offering a range of specialized engineering services to clients in the IT, Telecom, and infrastructure sectors.

### TRADE

High-quality products are supplied and distributed by The Trading Division in a pioneering way

# ABOUT US

*Welcome to Taqat Al Watan Contracting a professional System Integrator company based in Riyadh, Saudi Arabia. Taqat Al Watan Contracting provides cost-effective and high-value fibre & UTP network services and Security access controls system to the clients. In the field of technology, Taqat Al Watan Contracting assists clients in selecting, installing and maintaining their complete IT infrastructure to run their business.*

ABOUT

## الرؤيا

### Vision

To be the premier choice for construction services in Saudi Arabia, known for our integrity, reliability, and commitment to excellence in every project.

## اهدافنا

## Mission

To set new standards in the construction industry, delivering projects that reflect quality, durability, and precision. We aim to enhance the Kingdom's development through strategic, sustainable, and safe construction solutions that serve the community at large.

# Why Choose Us?

**Established Expertise:** Backed by Bastmat Al Omran's legacy, we bring more than 20 years of knowledge to every project.

**Innovation in Design:** Our approach combines modern techniques with sustainable practices to create structures that are functional, aesthetic, and environmentally conscious.

**Dedicated Project Management:** We prioritize timely delivery, budget adherence, and thorough quality control.

**Client-Centered Approach:** We prioritize timely delivery, budget adherence, and thorough quality control.

# Plumbing

TCC Saudi puts lots of emphasis to ensure that every plumbing system installed is equipped with well sized and securely connected pipes, drains fittings, valves, valve assemblies and devices for the proper distribution of water.

Our Designers always assure to implement KSA and regulations and standards to guarantee delivering best quality.

# CCTV SURVEILLANCE SYSTEMS AND ANPR...

CCTV systems are constantly evolving with technology.

A smarter system also eliminates human error and reduces labor time costs. There are many different options when it comes to CCTV systems.

CCTV builds systems according to your needs and budget, always providing the best system for your site and your requirements.

Analogue or High Definitions (HD) CCTV

IP CCTV Security Systems

AI Based CCTV Security Systems

CCTV Control Rooms and Control Room Consoles

ANPR System

# GATE BARRIER, HIGH SECURITY ROAD BLOCKER AND BOLLARDS...

High Security Road Blockers

**Road blockers** are heavy duty and anti-terrorist HVM barriers that are installed at high-sensitive areas where unauthorized vehicle have strict restrictions for access.

Bollards is a barrier used in sensitive location to against vehicle intrusion. Each fixed bollard has a certain safety distance between them to prevent intrusion.

**Barrier** offers efficient security at the exit and the entry points of factories, office complexes, corporate houses, residential buildings, parking lots and Government institutions where medium to heavy traffic is expected.

Boom Barriers

Bollard System

# OSP FIBER OPTIC CIVIL WORK, CABLE LAYING, FIBER SPLICING AND ODTR TEST...

Excavation work for  
OFC laying

Fiber Splicing

OFC splicing is handled by a team that is dedicated and equipped with a fully equipped Fujikura splicer system.

Our professional team handles all types of OSP work, from site surveys to the cable installation.

Fiber optic testing encompasses all of the standards, processes, and tools used to test the components of both newly installed and deployed Fiber Optic Networks

Fluke Testing

# WIRELESS DEVICES AND UTP CABLE MANAGEMENT...

## Wireless and Devices

**Deliver** fast and reliable Wi-Fi performance, improve network efficiency, and support the demands of increasing mobile and IoT density on your network.

The design, planning, survey, design and implementation of structured cabling systems, UTP, and copper networks are all part of the process.

## UTP Cable Management

# DATA CENTER IMPLEMENTATION & INSTALLATIONS

Install, move, add and change with a trusted, global expert in IT Life Services.

Our professional team handles all types of activities related to Data Centre Installation, Testing / Commissioning.

# Safety

Team TCC Saudi its success with its multidisciplinary expertise in the complete process of tertiary and industrial facility design and contracting. Our team's specialized skills are manifested from design review through project management to the final delivery of turnkey projects. Most of our senior engineers and staff have acted as project managers, both in-house and for various international customers interfacing with other engineering firms and contractors.

# Engineering

TCC Saudi success stems from its dedication to provide customers with proven professional services and cost-effective solutions driven by transparency. As such, the company focuses on delivering tailor-made projects with quality-centric workmanship.

TCC Saudi has an in-house technical team offering round-the-clock services to ensure that our clients are satisfied from project inception until its final completion.

## Taqat Al Watan Contracting engineering services and solutions include:

- **Conceptual and preliminary engineering**
- **Evaluation of tender documents**
- **Design review and value engineering**
- **Project cost estimation**
- **Equipment and materials procurement**
- **Planning and scheduling**
- **Detailed design & shop drawings**
- **Inspection, quality assurance and control**
- **Testing & commissioning**
- **Operator training**

A close-up photograph of a person's hands working on a set of technical blueprints. The person is wearing a light blue long-sleeved shirt. Their right hand holds a black pen, and their left hand holds a pair of metal calipers, measuring a small, circular metal component. The blueprints are spread out on a surface, showing various technical drawings and dimensions. Several other mechanical parts, including bolts and a larger metal flange, are scattered around the blueprints. The image is partially obscured by a large orange diagonal shape that separates it from the text on the right.

What we do

# Mechanical

## HVAC

We install, maintain and repair climate-control systems in homes, school, hospitals, factories, office...Providing thermal comfort and maintaining good indoor air quality is our main purpose.

TCC Saudi strives to install systems with the perfect quality-cost balance that successfully provides superior air quality while incurring low energy costs and allowing easy maintenance.

What sets us apart is that our team undergoes continuous extensive training that is unmatched in the industry. We follow blueprints and specifications for installation, inspect and maintain systems, install controls, test individual parts, and replace worn-out components.

What we do

## The plumbing systems that We specializes in:

**Sanitary and  
drainage systems**

**Water  
distribution**

**Water  
treatment**

**Variable and fixed  
speed pumping  
systems**

**Solar  
Heaters**

**Kitchen and  
laundry plumbing**

**Irrigation systems  
and controls**

**Sand traps and  
grease traps**

**SERVICE  
PLUMBER**

# Fire Fighting

The reliable protection systems we install have one main purpose which is to prevent the interruption of services necessary for the public welfare and avoid area wide conflagrations, all the while putting the safety of life at the utmost priority.

- **Fire suppression systems**
- **Fire extinguishers**
- **Fire hose reels**
- **Fire hydrant systems**
- **Automatic sprinkler systems**
- **Dry and wet riser**

What we do

# Electrical Low Voltage

TCC Saudi engineers' low voltage systems that distributes power where is needed, safely and reliably, while providing optimal protection for personnel and equipment.

## Our range of low voltage distribution elements includes:

- **Grounding**
- **Main Distribution Boards (MDB)**
- **Secondary Main Distribution Boards (SMDB)**
- **Final Distribution Boards ( FDB )**
- **Cables**
- **Lighting fixtures**
- **Sockets**

Emergency power systems are extremely useful in many different settings such as residential homes, hospitals, research laboratories, data centers, and telecommunication centers. TCC Saudi specializes in many emergency power systems that include:

- **Generators**
- **UPS**

## What we do

# Low Current

TCC Saudi Provides fully integrated security and low current systems, harvesting the power of networking and IT infrastructure to offer the end user with a reliable, customizable, and upgradable solution.

**Data and Communication**

**Fire Alarm**

**Access Control**

**Queue Management System**
